

(The following letter is meant to be read aloud.)

Good morning!

How are you doing this fine, mostly dry, morning? It's been a wet couple of days and an interesting time for the KCC family and the human family around the world. Like you, children around the world are having a similar experience.

- ✚ They are not going to school for a little while.
- ✚ They are staying close to home.
- ✚ They are spending a LOT of time with their families.

Can you believe it? You are all doing the same thing right now. At the same time. Kind of cool isn't it?

And is it for a good reason? YES, I can affirm that It is for a very good reason. You are helping your family and other persons and families in your neighborhood. By not sharing germs, you are doing your part to keep your family and your neighbors healthy.

For once, NOT SHARING is the most important thing you can do. Good job! Thank you for doing this important job for your community. Your actions matter.

Before I go, I just want to remind you to take care of your family and have some fun this week. Take advantage of this time to play a special game or to work on a project together.

I'll send you a video soon! Until then, know that I love you and God loves you.
